

Cover Letter - Marlon Franca Silva

Senior Graphic Designer | 3D & Motion Designer

As a multidisciplinary designer with experience across branding, motion, and video, I bring a combination of execution speed, visual clarity, and creative independence that aligns well with fast-paced, cross-functional environments. My work has supported major events, product campaigns, and brand activations always with a focus on translating complex briefs into clean, high-impact visuals.

Highlights from my recent roles include:

Delivered branded content, motion assets, and large-scale visuals for live events, working with clients such as Roche, Deloitte, and MSD

Designed and produced 3D exhibition environments showcased at RDS and Convention Centre Dublin

Managed full-cycle creative projects for presentations, print, social content, and video, from concept through editing and post-production

Created and adapted visual identities, layouts, and marketing materials across platforms, maintaining consistency and quality under tight deadlines

Fluent in Adobe Creative Suite, Blender, and DaVinci Resolve, with strong file prep and production knowledge

I'm particularly drawn to roles where design plays an active part in shaping the product and brand experience. I thrive in environments that combine structure with creative autonomy, and I'm used to collaborating asynchronously across teams to deliver work that's both effective and polished.

My portfolio is linked below. I'd welcome the opportunity to connect and learn more about how I can contribute to your team.

Kind regards

Marlon França
